

# CALL FOR PARTNERS

Become part of an (inter)national project consortium!

We are looking for **startups, SMEs, and large enterprises** for our project ideas.

## Why participate?

- **Up to 50% funding:** Reduce your project costs for the research centers support
- **Technological edge:** Targeted further development of your technologies, methods, and processes
- **Expansion of expertise:** Deepening your specific expertise through applied research
- **Strong research partner:** Collaboration with an experienced, industry-oriented research center

## Who can participate?

**Industrial companies:**  
Participation in open calls

**Scientific partners:**  
Expressions of interest are possible, provided this is specified in the project description

Are you interested in collaborating and/or do you have a project idea of your own?

**Contact us!**
